

SHYAM SUNDER

SRE / DevOps Engineer | AWS | GCP | Terraform | Kubernetes | Docker | CI/CD | Linux | Jenkins

(+91) 7037231256 | shyamsunderdevOps01@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) |

PROFESSIONAL SUMMARY

DevOps Engineer with 5+ years of experience building and maintaining CI/CD pipelines, cloud infrastructure, and containerized applications across AWS and GCP. Skilled in Linux administration, Jenkins, Docker, Kubernetes, Ansible, and Shell scripting, with hands-on experience in application deployment, infrastructure automation, monitoring, and cloud migration. Experienced in building scalable, reliable, and secure platforms while continuously expanding expertise in cloud-native technologies.

CORE COMPETENCIES

- ❖ DevOps & CI/CD Automation
- ❖ Cloud Infrastructure (AWS & GCP)
- ❖ Kubernetes & Docker
- ❖ Linux Administration
- ❖ Infrastructure as Code (Terraform)
- ❖ Monitoring & Observability
- ❖ Application Security & Code Quality
- ❖ Release & Deployment Management
- ❖ Shell & Python Automation

TECHNICAL SKILLS

Cloud Platforms:	AWS, GCP
Containers:	Docker, Kubernetes
CI/CD:	Jenkins
Configuration Management:	Ansible
Infrastructure as Code:	Terraform
Version Control:	Git
Build Tools:	Maven
Programming:	Shell, Python
Operating Systems:	Linux, Windows
Monitoring:	Grafana
Web & App Servers:	Apache HTTP Server, Apache Tomcat
Security:	SonarQube, Black Duck, Fortify
Artifact Repository:	JFrog Artifactory
IT Service Management:	ServiceNow

CERTIFICATIONS

- ❖ **AWS Certified Solutions Architect – Associate**
- ❖ **Google Cloud Certified - Associate Cloud Engineer**
- ❖ AWS Partner: Technical Accredited
- ❖ Infosys Certified Kubernetes Administrator Associate
- ❖ Infosys Certified Associate in IaC using Terraform
- ❖ Infosys Certified AWS Solutions Architect Professional

PROFESSIONAL EXPERIENCE

Infosys Limited

SRE / DevOps Engineer

Jul 2021 – Present

Client: **GE Appliances, a Haier Company**

Location: Jaipur, Rajasthan

- ❖ Designed and maintained **CI/CD pipelines** supporting multiple application deployments across development, QA, and production environments, enabling consistent and reliable software releases.
- ❖ Provisioned and managed AWS services including **EC2, IAM, VPC, ALB, Auto Scaling Groups, S3, EBS, Route53, RDS, and Security Groups**.
- ❖ Supported infrastructure deployed on **Google Cloud Platform (GCP)**, including **Terraform**-managed LDAP connector environments.
- ❖ Installed, configured, and administered **Jenkins Master/Agent architecture** across multiple Linux servers.
- ❖ Built and deployed Java applications (WAR/JAR) to **Apache Tomcat** environments through automated deployment pipelines.
- ❖ Containerized applications using **Docker** by creating optimized **Dockerfiles**, custom images, **container networking**, and Docker Swarm deployments.
- ❖ Created **Kubernetes** Deployment, Service, and ConfigMap manifests to automate application deployments.
- ❖ Configured **Apache HTTP Server** and integrated it with **Apache Tomcat** for application hosting.
- ❖ Implemented application quality and security scanning using **SonarQube, Black Duck, and Fortify**.
- ❖ Managed application artifacts using **JFrog** Artifactory.
- ❖ Integrated **Grafana** dashboards with MySQL databases for operational monitoring and reporting.
- ❖ Supported **SRE** onboarding activities by validating SLIs, SLOs, and SLAs and ensuring production readiness.

PERSONAL PROJECTS

End-to-End Jenkins CI/CD Pipeline for a Spring Boot Application

Technologies: **Terraform | AWS EC2 | Jenkins | Maven | Java 21 | Spring Boot | SonarQube | Docker | Trivy | Docker Hub**

- ❖ Built an end-to-end Jenkins CI/CD pipeline automating Git checkout, Maven unit/integration testing, SonarQube analysis, Quality Gate validation, application packaging, and Docker image creation.
- ❖ Implemented Docker image vulnerability scanning with Trivy and automated publishing to Docker Hub using Jenkins Credentials and reusable Jenkins Shared Library functions.
- ❖ Provisioned the Jenkins server on AWS EC2 using Terraform and implemented GitHub SSH integration for automated source-code retrieval.

Microservices Deployment on Kubernetes

Technologies: **Docker | Kubernetes | Maven | Java | Minikube**

- ❖ Designed and deployed a three-tier Java-based microservices application on Kubernetes using Minikube.
- ❖ Built application artifacts using Apache Maven and containerized services using Docker.
- ❖ Implemented service-to-service communication using Kubernetes Services and managed deployments via YAML manifests.
- ❖ Monitored workloads using Kubernetes Dashboard and validated application health.
- ❖ Practiced container orchestration concepts including scaling, rolling updates, and service exposure.

EDUCATION

MASTER OF COMPUTER APPLICATIONS | Chandigarh University, Punjab
BACHELOR OF COMPUTER APPLICATIONS | GLA University, Uttar Pradesh

2023 – 2025
2018 – 2021
